Profile Summary

As a highly motivated and enthusiastic fresher full stack developer, I bring a strong foundation in both frontend and backend technologies. With hands-on experience in building and integrating APIs, creating responsive web applications, and managing databases, I am eager to contribute to dynamic projects and further develop my skills in modern web development.

Projects

E-COMMERCE PROJECT | *HTML, CSS, Javascript,React,Redux Toolkit* | GitHub | Demo   **Dec 2024**
  – Built a feature-rich e-commerce application using React, Redux Toolkit, and Firestore.
  – Designed and implemented features including user authentication, product search, filtering, and cart management.
  – Utilized Redux Toolkit for efficient state management and Firestore for real-time data storage and retrieval.
  – Delivered a responsive, scalable, and user-centric platform adhering to modern web development best practices.

COVID-19 HOSPITAL MANAGEMENT API | *Node.js, Express.js, MongoDB* | GitHub   **October 2024**
  – Engineered an API for managing COVID-19 patient data, including check-ins and report generation.
  – Established JWT-based authentication for secure access by doctors and patients.
  – Developed endpoints for patient status categorization and ensured data protection.
  – Implemented stringent security protocols to safeguard sensitive information.

SUPERHERO FINDER | *HTML, CSS, JavaScript* | GitHub   **April 2024**
  – Created a web application utilizing the Marvel API for superhero searches and detailed profiles.
  – Integrated real-time search, filtering options, and favorites management.
  – Implemented persistent favorites lists to enhance user interaction.

Experience

Amazon   **Feb 2021 – Feb 2022**
Tron Associate   *Bengaluru, India*
  – Identified data pattern exceptions, resolving discrepancies swiftly and reducing error rates by 25%.
  – Met predetermined productivity targets and quality standards within expected deadlines.
  – Understood performance metrics and process requirements to drive business results in a live environment.

Technical Skills

Languages: HTML, CSS, JavaScript, Node.js.

Developer Tools: VS Code, Git.

Databases: MongoDB, cloud Firestore.

Frameworks/Library: Bootstrap,Express.js,React.js.

Soft Skills: Problem-Solving, Analytical Thinking, Team Work, Time Management, Critical Thinking, Interpersonal Communication.

Education

Bachelor of Engineering, Indore, M.P   **June 2015 – June 2019**
B.E in Electronics and Communication Engineering

Trainings

Coding Ninjas   **Jan 2024 – Dec 2024**
Full Stack Web Development
  • **Frontend | Backend**
